

# My Daisy Days™ – an Interactive DVD Adventure Series

This video-assisted learning series provides an **individual** or **group** literacy experience where children follow along as they watch *Daisy* go on an **adventure**. As confidence and pre-reading skills develop children are able to view an adventure and engage in rich discussions and activities that help them better understand their world and develop as readers.

## How to Use “My Daisy Days™” Interactive DVD Adventure Series (**Individual**)

1. Choose the adventure video that you and your child would like to watch.
2. Ask your child to pay close attention to the places Daisy visits and people and animals she meets on her adventure.
3. Tell your child that both of you will “turn-and-talk” to each other when the DVD is playing or that you will STOP the video to ask questions or answer questions about the content of the video.
4. Encourage your child to predict what will happen and to use her/his imagination.
5. Develop vocabulary by telling your child specific names of places and characters in the DVD and encourage your child to use the vocabulary words.
6. Help your child complete one or more activities suggested on the website that come with the adventure DVD.
